

# How to make a 'Tack Punch'

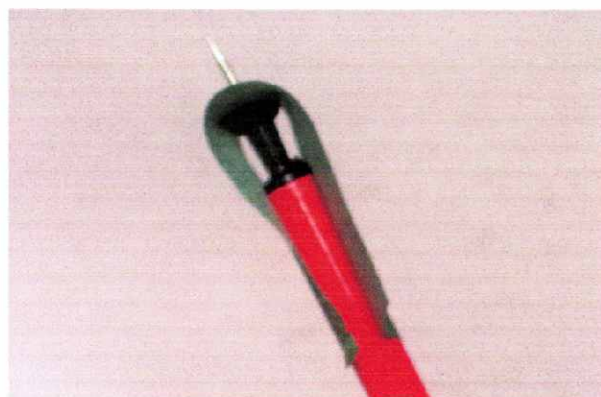

## SUPPLIES:

Painter's low-tack masking tape,  
a thumb tack with plastic head,  
a pencil, unsharpened.

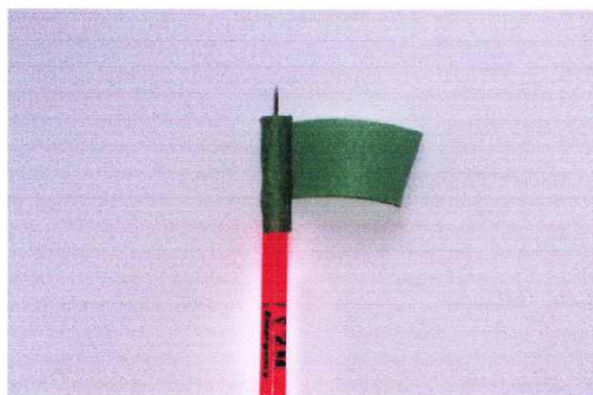

## STEP 1

Begin by placing a piece of tape over the tack and down the sides of the pencil. Smooth and mold the tape.

## STEP 2

Take a 2nd piece of tape and firmly tape around the sides (pulling the tape tight as you go for a firm hold).

## STEP 3

Repeat Steps 1 & 2 three times. The finished Tack Punch is very secure and will do an excellent job punching the tiny guide holes.
